

Bear Resistant
Folding Glass Wall

NanaWall
Engineering the Exceptional

Unique Design Provides Unequaled Protection from Bears in a Folding Glass Wall

With the BEARricade, you'll enjoy all of the attributes a NanaWall opening glass wall offers—indoor/outdoor lifestyle, fresh air ventilation, and open views—but when closed, the glass wall provides unequalled weather protection, security, and defense from bears.

- **NanaWall BEARricade™ Post:**
Reinforced structural posts and impact rated laminated glass provide unparalleled strength that resists the bear's ability to "push in" the glass panels.
- **NanaWall BEARlock™ System:**
Secure multi-point tamper-resistant locks engage with the turn of a handle shoots the concealed lockbolts up into the head track and down into the floor track for a secure multipoint connection. The bottom shoot bolts have a one-inch throw for maximum security.
- **Reliable, Durable, Smooth Operating:**
NanaWall Floor Supported Technology provides long-term easy operation by carrying the main weight of the panels on the floor track. Dual stainless steel elevated running carriages within the reinforced structural posts are impervious to track debris.
- **Superior Humidity Control and Energy Efficiency:**
The wide polyamide seal and panel design provides superior humidity control, improved acoustics, and exceptional energy efficiency for cold environments.

BRING THE OUTSIDE IN BUT NOT THE BEARS

Many of the world's most elegant vistas are located in beautiful scenic locations that also include wild animals such as bears. If your home is in an area that is near forested land, chances are you have bears as neighbors. Although bears usually avoid contact with humans, they are opportunistic and will search for human food supplies when they become accustomed to associating a large box (your home) as a food source.

A thrilling sight to see outside your home, a bear is less than charming when it's trying to have dinner in your home. Bears learn how to enter homes by simply using their immense strength and weight to push open French doors, windows, and even pushing in or breaking the glass on typical sliding glass doors.

The NanaWall Aluminum Framed Folding System BEARricade™ is specifically designed for security and strength while providing large glass openings up to 38' wide.

The NanaWall Aluminum Framed Folding System BEARricade™ is specifically designed for security and strength while providing large glass openings up to 38' wide.

WE ENGINEER THE EXCEPTIONAL

NanaWall redefined the category of opening glass wall systems. During our 25-plus years in business, we have earned the trust of architects, builders, design professionals, and homeowners as a solutions provider for re-imagining how buildings, people, and the elements interact. By combining precision engineering and outstanding design options across more than 20 unique systems, we advance design possibilities beyond the conventional for almost any space.
