CASE STUDY BRIEF

BALTUSROL COUNTRY CLUB

With a rich heritage that dates back to 1895, Baltusrol is considered one of the country's premier private golf clubs. Adhering to the club's 125 year old architectural style was a difficult task—one that NanaWall opening glass walls achieved.

The dining area offered exceptional views of the golf course and beyond but was behind fixed windows. Baltusrol wanted to open the space to the picturesque environment while being able to enclose the dining area during inclement weather.

NanaWall thermally broken HSW60 was chosen for its main feature of sliding and stacking into a bay and out of sight.
