NANAWALL NW CLAD 740 FINISH OPTIONS

NW Clad 740 Folding Glass Wall offers the slimmest premium quadruple laminated wood profile with durable aluminum cladding on the exterior—featuring unique NanaWall clip-on cladding technology and solid wood interior profiles. The design of the profiles allows the wood frames to breathe and contributes to long-term durability and energy efficiency in all-weather environments.
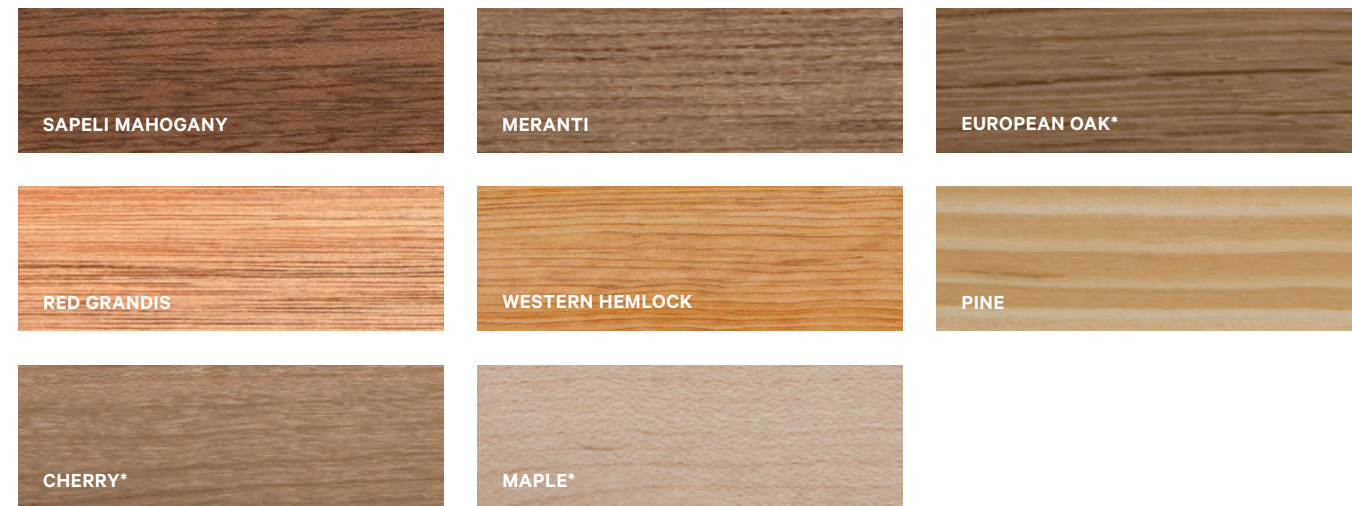

NW Clad 740 wood finishes combine the natural beauty of wood with the durability of aluminum. Six wood species are offered with the option of painting the wood with 18 standard colors while the aluminum on the exterior can be finished with 50 standard powder coat finishes. See inside for details.
